PIONEER PRINCESS

PIONEER PRINCESS WOOD COOK STOVE

Introducing the NEW PIONEER PRINCESS!!

Many of us that have used a Pioneer Maid cook stove really like the way it cooks, bakes and heats but don't like the fact that it is only a top load stove. (meaning you can only access the firebox through an eye in the cook top.) Because of the many requests they were getting to make a front load stove, Pioneer Stoves went to work and created the Pioneer Princess. The Princess is the front load version of the Pioneer Maid but with some added improvements:

Thermostatically Controlled Draft

Optional 20 Gallon Rear Reservoir

Now you can enjoy the ease of a front load firebox and the efficiency of the Pioneer Maid all in one stove - The PIONEER PRINCESS!
